NOTE: Errors discovered in bills by Customers should be corrected by them and paid accordingly. Payment of all bills, including those corrected by Customers, must be made within the credit period. If Customers receive bills that they believe they are not responsible for paying, they must notify Subscribing Carrier within the credit terms that they are not responsible for paying the bills.

Notwithstanding anything to the contrary in this Tariff, if a Customer disputes charges received in a bill from Subscribing Carrier, Customer must follow the procedures as specified in this Tariff.

Payment of an amount less than stated on a Subscribing Carrier invoice will be considered as payment on account and not as payment in full, notwithstanding any notation to the contrary on the payer's remittance. Acceptance by Subscribing Carrier of the lesser amount will not constitute an accord and satisfaction. The payer will be advised of any remaining balance deemed due after application of the remitted funds.

Notwithstanding anything to the contrary in this Tariff, if a Customer does not pay the charges in a bill received from Subscribing Carrier within the time period specified in this Tariff, Subscribing Carrier, at its sole discretion, may revoke Customer's credit with Subscribing Carrier and require Customer to pay Subscribing Carrier cash in advance of delivery of services ("COD") prior to Subscribing Carrier providing pick-up and/or delivery of Customer's railcars. Customers with past due amounts will receive a finance charge invoice each month. Finance charges will be assessed on delinquent bills for freight or miscellaneous charges as of the end of the month reduced by amounts in dispute and any payments received by month end but not posted.

If Subscribing Carrier, at its sole discretion, uses a collection agency or attorneys to collect delinquent bills for freight or other charges and Subscribing Carrier is successful in collecting such charges, Customers shall reimburse Subscribing Carrier for all reasonable collection costs, including reasonable collection agency fees and reasonable attorneys' fees.

The minimum deposit for each freight car will be the average amount per freight car of demurrage, detention, switching or other accessorial charges outstanding at the time this Tariff provision is invoked against Customer. The maximum amount of deposit will be determined by the Subscribing Carrier's credit office or through other alternative forms of security. The credit office may waive the minimum deposit per car by accepting a revolving deposit of \$1,000.00 to \$50,000.00 based on traffic volume. The deposit will be held in an escrow account to guarantee payment of and to be applied against any switching, demurrage, detention, or other accessorial charges which may accrue since the implementation of the security deposit arrangement.

The Subscribing Carrier will refund the deposit or balance of the deposit within thirty (30) days after notification by its agents that the equipment has been released to the Subscribing Carrier. Any switching, demurrage, detention, or other accessorial charges will be deducted from the deposits before any refunds are made. The deposit or balance of the deposit may be transferable to another freight car to cover charges incurred since the implementation of the security deposit arrangement.

Security deposits will no longer be required after the Customer has paid all outstanding switching, demurrage, detention, and other accessorial charges and has given assurance in writing to the satisfaction of the Subscribing Carrier's credit office that future switching, demurrage, detention, and other accessorial charges will be paid within the credit period.

A round trip charge per car (See Notes 1 and 2) will apply on empty cars as specified in Subscribing Carrier's Rate Tariff 8001 destined to a shop facility for cleaning, lining, relining, maintenance, modification or repairs. This charge is applicable only on empty private freight cars as registered in UMLER, that arrive at a station free of line-haul charges.

NOTE 1. - Charges apply for round-trip movement from yard tracks to shop facility and return, when moving solely on the tracks of Subscribing Carrier. If Subscribing Carrier switches the empty car into the shop facility and is not the switching carrier for the eventual movement from the shop facility, then the switching charge, as named in this item, applies only on the inbound movement.

NOTE 2. - Unless otherwise provided on a bill of lading or in a transportation contract, the charges in this item will be assessed against and collected from the person, firm or corporation ordering the movement.

**ITEM 3270**

**IDLER CARS**

**SECTION 4**  
**HAZARDOUS MATERIALS AND TIH/PIH PROCEDURES AND DEFINITIONS**

**ITEM 4005**

**HAZARDOUS MATERIALS : LOSS AND DAMAGE**

Hazardous Materials are defined as "Hazardous Wastes" and "Hazardous Substances" as named in Hazardous Materials Regulations of the U. S. Department of Transportation in 40 Code of Federal Regulations (CFR) 260 through 263 and 49 CFR 171.8 or successor thereof. Explosives are defined as Class A, B, and C Explosives as named in Part 172, Commodity List, Tariff Bureau of Explosives (BOE) 6000-Series.

Customers are required to accept delivery of carload traffic of Hazardous Materials within 48 hours after notice of arrival has been sent or given to the Consignee. Customers that anticipate that they will not routinely be able to accept delivery in a timely fashion should make alternative arrangements for storage of cars. Subscribing Carriers do not hold themselves out to provide storage of cars containing Hazardous Materials.

For the purpose of this Tariff, the term "Loss" shall mean any loss, injury, or damage which arises out of transloading, unloading and loading, transportation or disposition (including treatment, storage or disposal) of the Hazardous Materials, including, but not limited to, loss or damage to property (including, without limitation, the property of either of the Customer or Subscribing Carrier) or to natural resources; injury or death of any person or persons (including, without limitation, employees of Subscribing Carrier); claims, liabilities, damages, fines or penalties; costs of containment, cleanup, response actions, removal actions, remedial actions, and health assessments, as these terms are defined by applicable federal, state or local laws and regulations; fees including, but not limited to, attorney, consultant, and expert witness fees; and costs of investigation.

For greater certainty but without limitation to the foregoing, the Subscribing Carrier's liability for any delay, loss or damage to Dangerous Goods to the exclusions, limits and defences set out in Item 1140 of this Tariff.

Customer hereby agrees to indemnify and hold harmless Subscribing Carrier, its officers, agents and employees, from and against any and all claims, demands, liabilities and lawsuits brought by any third party or governmental agency under any theory of law against Subscribing Carrier seeking to hold Subscribing Carrier liable for any Loss to the extent that the Loss is caused by Customer's act or omission, or act or omission of Customer's own Contractor, Customer's violation of any law or regulation, Customer's failure to accept delivery, or Customer's breach of any other requirement including, but not limited to, Customer's failure to provide proper identification of the Hazardous Materials to be transported, whether or not Customer relied on other parties for said identification, unless Subscribing Carrier's act or omission, violation of law or regulation, or breach of any requirement of this Tariff contributed to the Loss.

Notwithstanding any provisions in this Item 4005, Customer hereby agrees to indemnify and hold harmless Subscribing Carrier, its officers, agents, and employees from and against any claim for Loss, regardless of cause, resulting from an event that occurs subsequent to delivery to and acceptance of hazardous waste product by Customer, another rail carrier, or contractor, or other transporter designated by Customer, or an EPA licensed treatment, storage, or cleanup/disposal site operator designated by Customer.

Customer shall, regardless of the cause, be fully liable for and shall indemnify Subscribing Carrier, its officers, agents, and employees against any Loss to the extent and only to the extent that such Loss or any portion of such Loss is attributable to the release or spill of a hazardous material which is not identified on the bill of lading or manifest.

Customer shall indemnify and hold harmless Subscribing Carrier and the actual owners of equipment used hereunder from and against any and all liability for Loss resulting from future use of or exposure to the equipment where such Loss arises from Customer's failure or negligence in inspecting and/or decontaminating equipment prior to release to Subscribing Carrier or delivering railroad or motor carrier.

Knowledge on the part of one party of any violation of any terms of this Tariff by the other party shall constitute neither negligence nor acquiescence in such violation, and shall in no event relieve either party of any of the responsibilities and indemnity obligations assumed in this Tariff.

References to Subscribing Carrier and Customer as used in this Tariff shall include the officers, agents and employees of Subscribing Carrier and Customer. Customer and Subscribing Carrier further agree that each and all of its indemnity commitments in this Tariff shall extend to and include the parent and all subsidiary and affiliated companies of Customer and Subscribing Carrier and their respective officers, agents and employees.

In the event of a conflict between provisions in this Item 4005 and the provisions contained in Item 4010 of this Tariff the provisions in Item 4010 shall govern.

**SECTION 4**  
**HAZARDOUS MATERIALS AND TIH/PIH PROCEDURES AND DEFINITIONS**

**ITEM 4010**  
**HAZARDOUS MATERIAL AND TIH/PIH LIABILITY**

Customers will be liable for all Federal, State, Local penalties or fines which may be assessed for the holding of rail cars containing Hazardous Material or TIH/PIH on railroad controlled tracks and shall be jointly and severally liable for any loss, damage, or delay to equipment or lading caused by an Act of God, a public enemy, the authority of law, labor strikes, acts of civil disobedience, the inherent nature or character of the lading, natural shrinkage, an act or default of the Customer/consignor, owner or consignee/receiver, or from any cause whatsoever which occurs while the equipment and lading is in the actual physical custody and control of Subscribing Carrier due to the inability of the Customer to receive equipment or provide proper forwarding instructions, unless it can be proven that the Subscribing Carrier's gross negligence was the cause of same. Customers will be responsible for any cost incurred by Subscribing Carrier for providing protection or surveillance of any commodity provided in this Item while held on Subscribing Carrier property.

**SECTION 5**  
**HEAVY WIDE DIMENSIONAL CLEARANCE PROCEDURES**

**ITEM 5000**

**GENERAL INSTRUCTIONS**

These procedures establish instructions governing the movement of shipments in excess of Plate C dimensions and/or weighing in excess of 263,000 pounds. It applies to all Subscribing Carrier railroads and affiliates.

Shipments weighing in excess of 263,000 pounds require that the route over which the load is to move be checked prior to movement to determine if the roadbed and structures have sufficient capacity to safely carry the load at the timetable speed authorized for the route.

Shipments in excess of Plate C dimensions require that the route over which the load is to move be checked prior to movement to determine if there is sufficient horizontal and vertical clearance to pass the load. Movements of standard equipment with larger plate dimension on routes cleared for those plates are exempt from this clearance requirement.

The Subscribing Carrier General Manager, or designee, where the excess dimension / excess weight load will originate, terminate or traverse is the point of contact for initiating all required clearance files.

In the case of the loads originating on Subscribing Carrier, the Connecting Class I carrier is responsible for ensuring the clearance request is generated based upon the customer's information. This clearance request must be provided to each railroad along the proposed route and the movement cannot be authorized until each clearance request is answered in the positive.

If the Customer has already established clearance procedures with another servicing road in the route, these procedures can continue to be used. The review and approval by the Clearance Bureau is still needed prior to movement.

In the case of loads terminating on or traversing over Subscribing Carrier tracks, the receiving road is responsible for processing the inbound clearance request to the Clearance Bureau. The movement cannot be accepted at interchange until the clearance is approved by the Clearance Bureau.

All clearance related correspondence should be channeled through the [Clearances@omnitrax.com](mailto:Clearances@omnitrax.com) organizational mailbox to ensure proper handling by those assigned responsibility for this function

**ITEM 5010**

- Any shipment which requires the use of an idler car(s).
- Weight not to exceed tariff limits.
- Requires the use of heavy duty and/or specialized equipment.
- Any shipment having a combined center of gravity greater than 98 inches above the rail.

**ITEM 5020**

**CLEARANCE RESTRICTIONS**

As a common point of reference, The General Tariff 5000 and the Subscribing Carrier's Rate Tariff 8001 for each Subscribing Carrier property shall contain its published weight limit and clearance information. This information can be published at the railroad or subdivision level.

- Where this information is not published in the Subscribing Carrier's Rate Tariff, this clearance policy and its appendices are the source document for line clearance.

Weight limits published in excess of 263,000 lbs. must be approved by the Subscribing Carrier and justified by one of the following source documents as approved by the Office of Corporate Development/Engineering:

- A current bridge rating demonstrating capacity sufficient for the intended car weights for each of the structures on the route.
- A copy of the predecessor railroad's bridge roster that contains bridge rating information demonstrating capacity sufficient for the intended car weights at the time of transfer.
