

OMNITRAX LOGISTICS SERVICES

SERVING THE UNITED STATES, CANADA AND MEXICO

SHIPPING
MADE EASY

OmniTRAX Logistics Services, LLC (OLS) is a leader in offering supply chain and logistics services that improve reliability, increase flexibility and make shipping easy. We help companies manage the transportation and distribution of their products throughout all modes of transportation. Through our affiliation with OmniTRAX, one of North America's largest private railroad and transportation management companies, OLS enables companies to utilize the Class I rail network and increase their connectivity to markets without having to undertake a significant capital investment. And through our integrated transload and logistics services, we help companies save money.

OLS understands that inefficiencies in supply chains can cost shippers time, money and new business opportunities. Managing multiple transportation vendors, juggling rate negotiations and finding sufficient storage options can be time consuming and complex. We don't think that it has to be that complicated for shippers, so we're making every effort to simplify things. We call it "Shipping Made Easy".

Our team of experts analyze supply chains of rail-served and non-rail-served companies in order to develop efficient logistics solutions and services that may include:

- Transload Site Selection, Design and Development
- Rail Rate and Service Plan Negotiations
- Storage and Warehousing Solutions
- Inventory Management
- Rail to Truck Transload Services
- Truck to Rail Transload Services
- Rail to Storage Yard Services
- Dedicated Customer Service

We have experience in safely handling dry and liquid bulk materials, project cargo and metal, building and consumer products.

Contact us today to learn how we can develop a supply chain solution that meets your needs and makes shipping easy for you.
