Northern Ohio & Western Railway (NOW) operates over 25 miles of trackage southeast of Toledo, extending from Woodville to Tiffin, Ohio. The communities served by NOW are within the I-75 corridor and have a significant and growing industrial base, along with a plentiful supply of developable land. NOW works closely with the economic development agencies of Seneca and Sandusky Counties to attract new industries.

NOW serves customers such as Ameriwood Industries, Carmeuse Lime, Kokosing, Laminate Technologies, MGQ Asphalt Terminal, and National Machinery. Principal commodities transported are clay, limestone, lime, magnesite, and pressed board. NOW customers have access to both Class I eastern railroads, CSXT and Norfolk Southern.
