

KFR Fuel Surcharge Tariff 9001

ISSUED: December 9, 2016

EFFECTIVE: January 1, 2017

ISSUED BY:
OmniTRAX Commercial Department
Acting as Agent for Subscribing Carriers

Fuel Surcharge Tariff 9001

APPLICATION:

A variable mileage-based fuel surcharge will be assessed on all Rule 11 traffic and local line-haul traffic originating and terminating on KFR. This charge is in addition to all Rule 11 and local line-haul transportation charges published in KFR Rate Tariff 8001 series and all other rate authorities. Miscellaneous and accessorial charges will not be subject to this fuel surcharge.

The fuel surcharge will be shown as a separate line item on the invoice and will be billed against the payer of the freight charges.

CALCULATION:

The per-mile fuel surcharge is calculated by multiplying the applicable fuel surcharge per mile times the number of miles per shipment. The applicable fuel surcharge per mile is adjusted quarterly.

In the event that the monthly average price per gallon of highway diesel fuel ("HDF Price") for the second month of the previous quarter ("HDF Basis Month") equals or exceeds \$2.25, KFR will assess a fuel surcharge per mile as set forth in "Carload Mileage-Based Fuel Surcharge Table".

Should the cost of fuel increase beyond the table (620 cents), the increase will be \$.02 per mile for each \$0.05 increase in the DOE fuel price index.

The HDF Price for the month is the monthly average price of U.S. No. 2 Diesel Retail Sales by All Sellers, as determined and published by the U.S. Department of Energy, Energy Information Administration at www.eia.doe.gov.

PC*Miler Rail product will be used to calculate total miles.
